

# Qwork Salary Analysis

by : Duhan Mahardika Amin

The logo for Qwork, featuring a stylized blue 'Q' followed by the word 'work' in a bold, blue, sans-serif font. The entire logo is set against a white rectangular background.

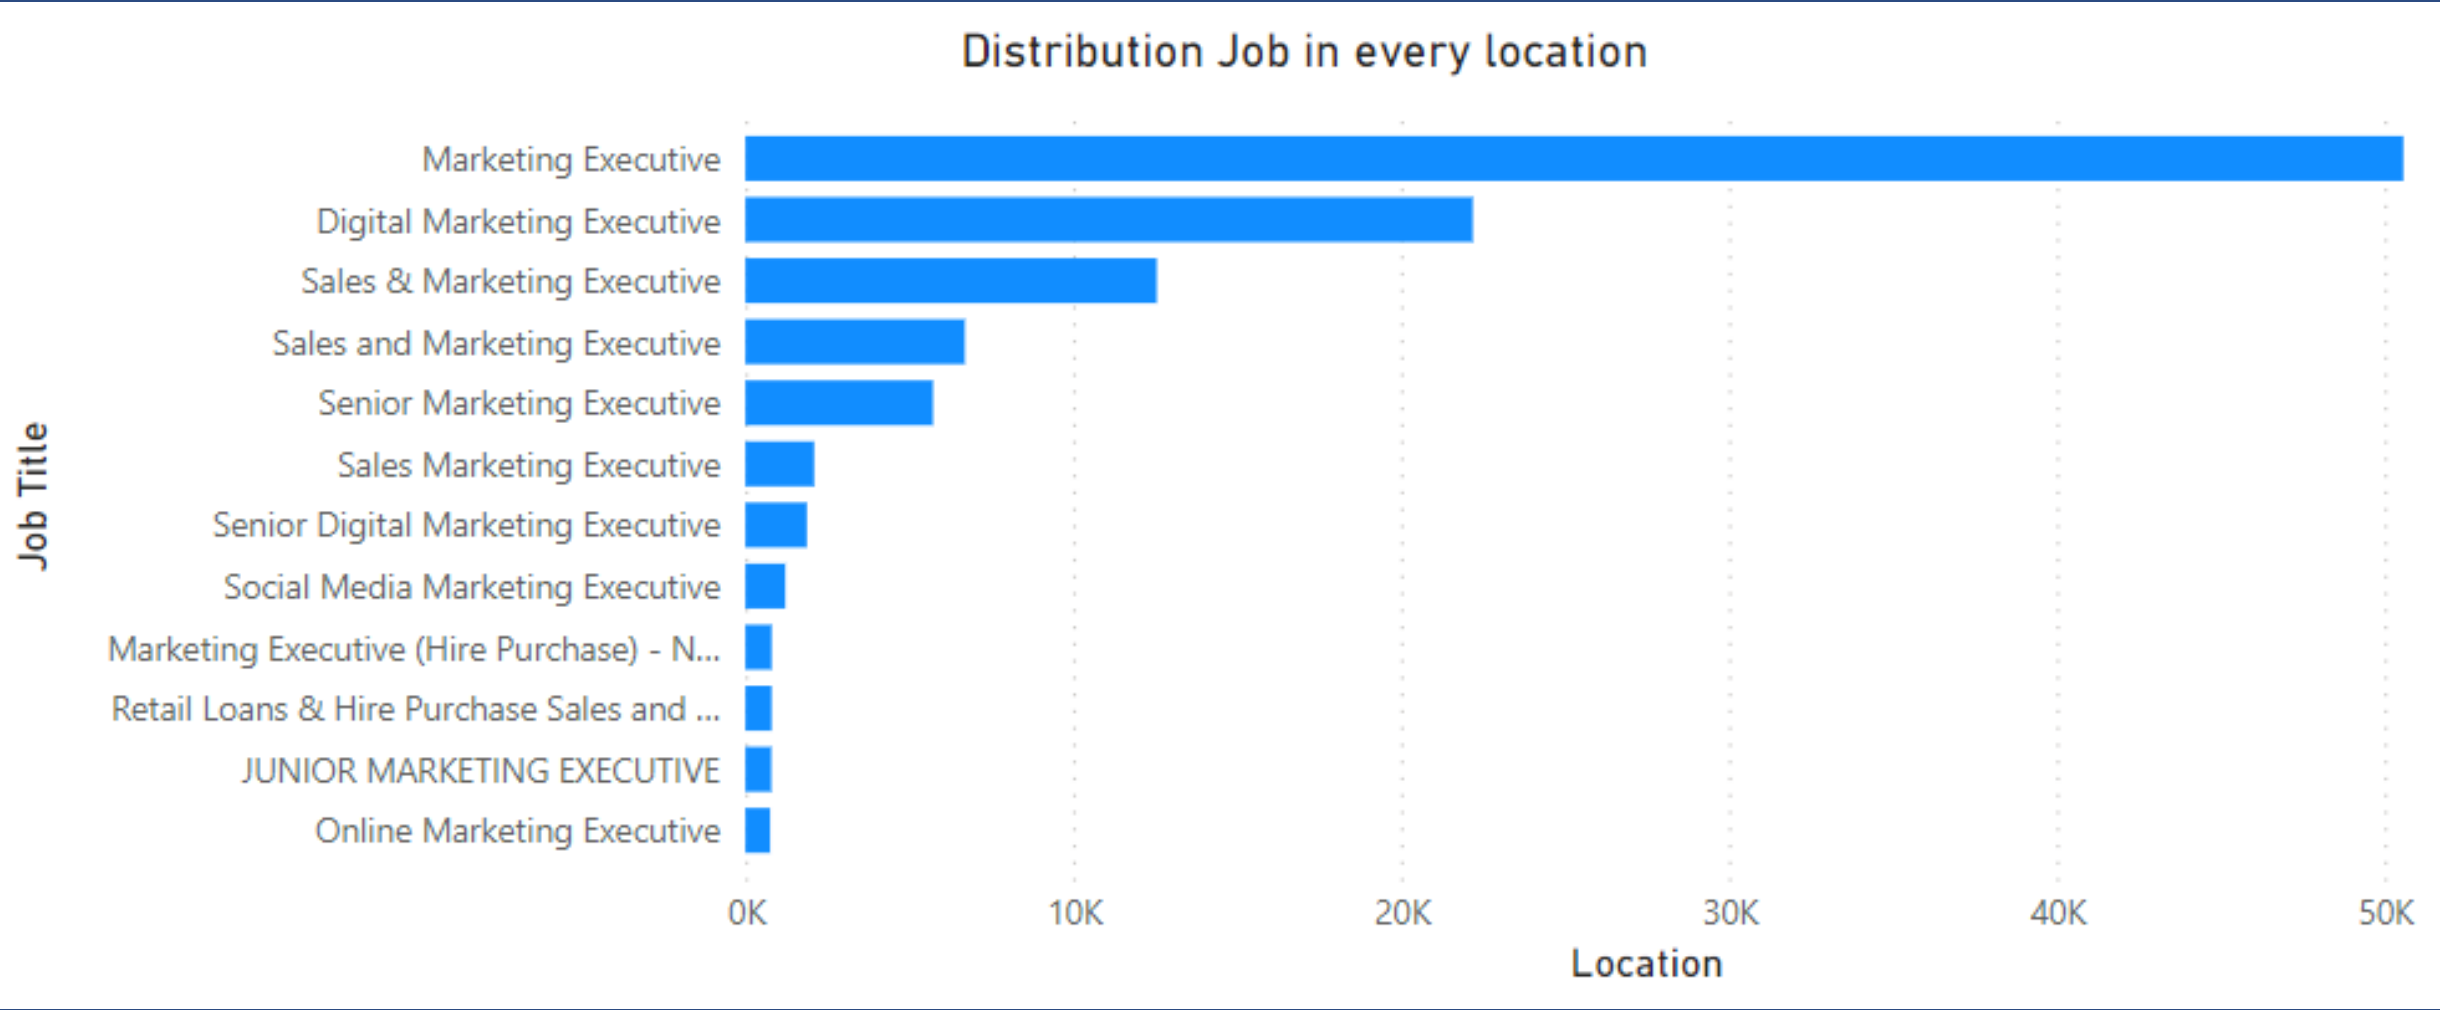

as Data Analyst, you are tasked to analyze the job position. The company proposed a plan to identify the job responsibilities and tasks, then transform them into gig jobs. Keep in mind that not all of the responsibilities are viable to be a gig job. To compensate for the job, you also need to identify the fair salary range for the job position according to its experience level and country

# Gigs?

Gigs or gig jobs are short-term jobs typically performed by freelancers or independent contractors.

Gig jobs typically provide time and location flexibility to workers, allowing them to choose projects that fit their schedules and skills."

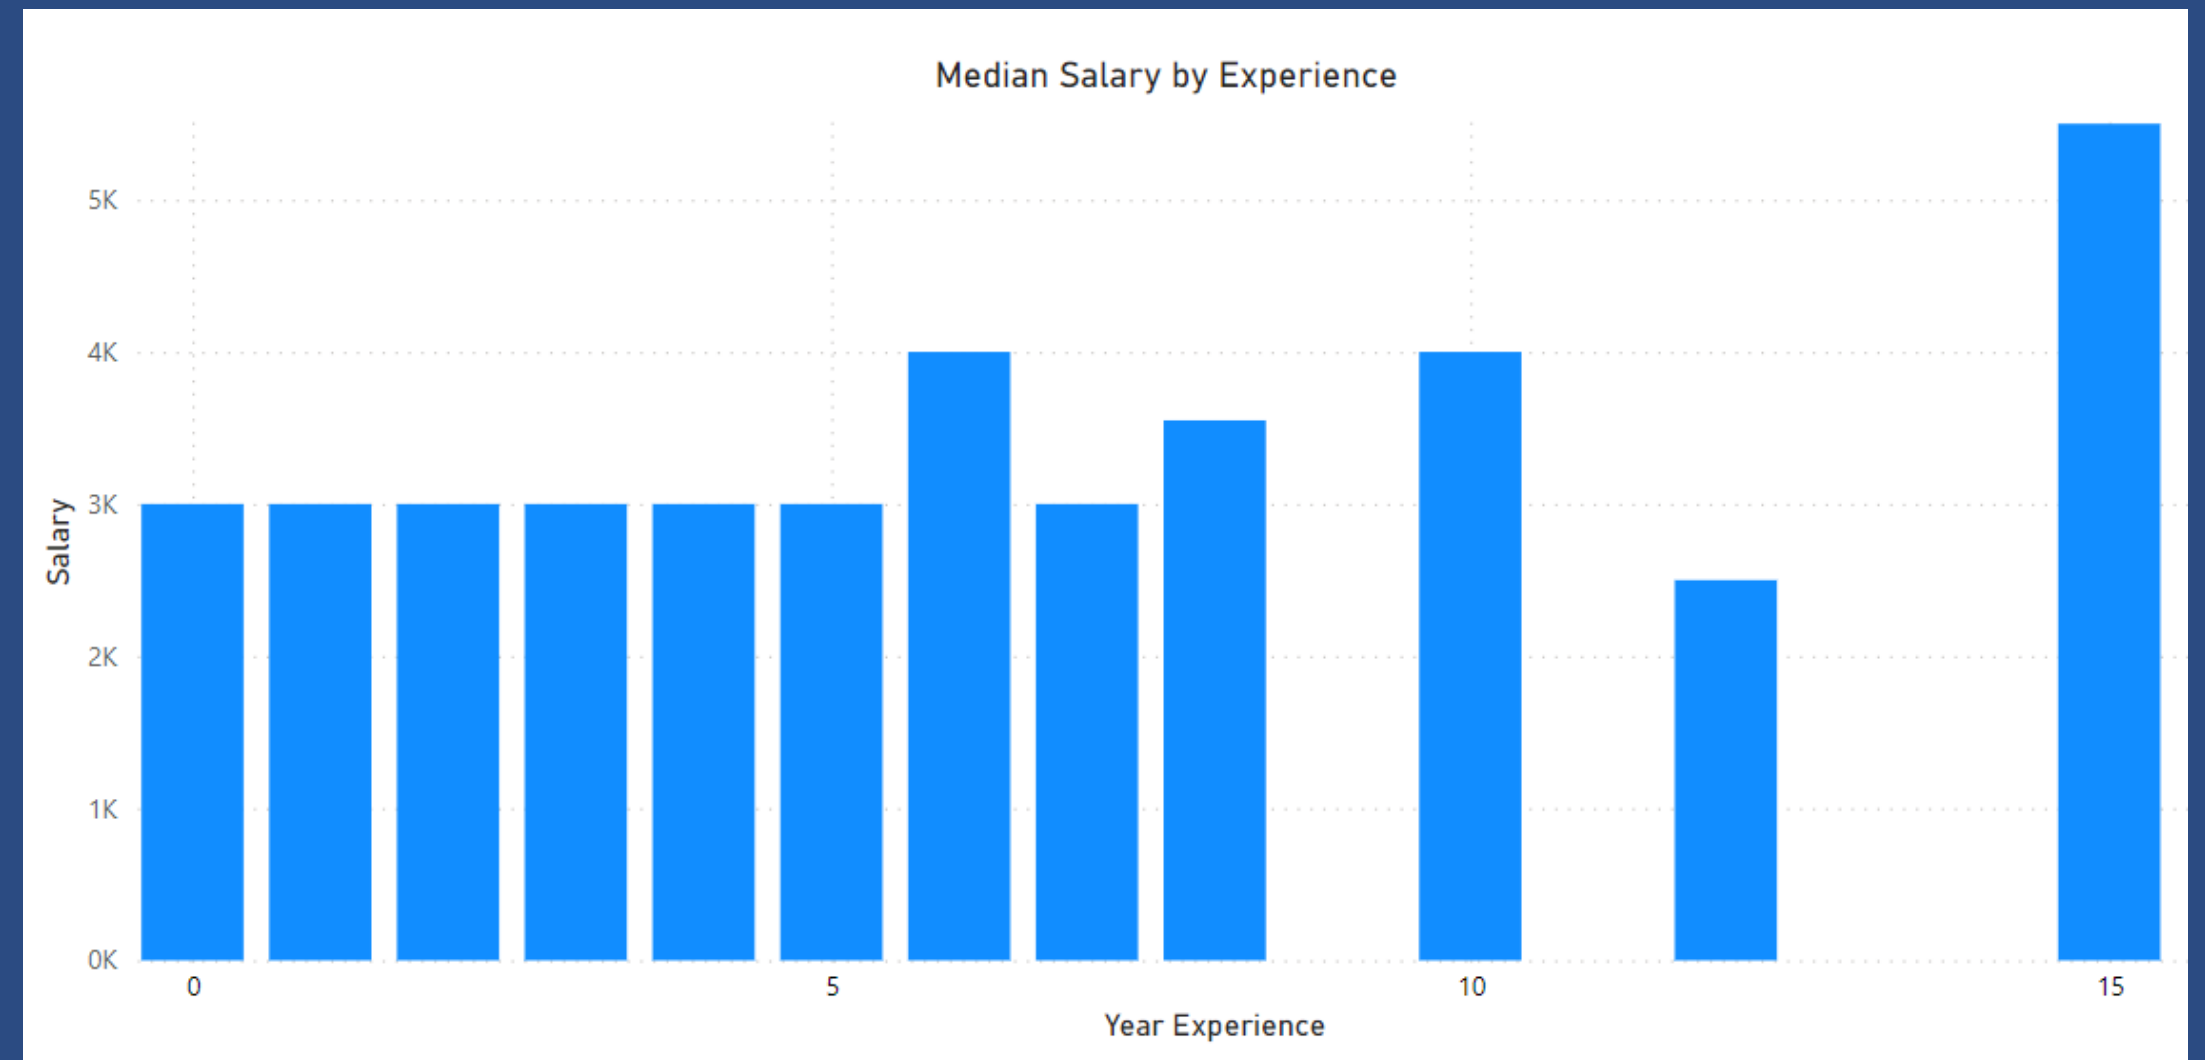

# The most job that do remote

Marketing Executive and Digital Marketing Executive are suitable candidates for gig jobs within the Marketing and Advertising category.

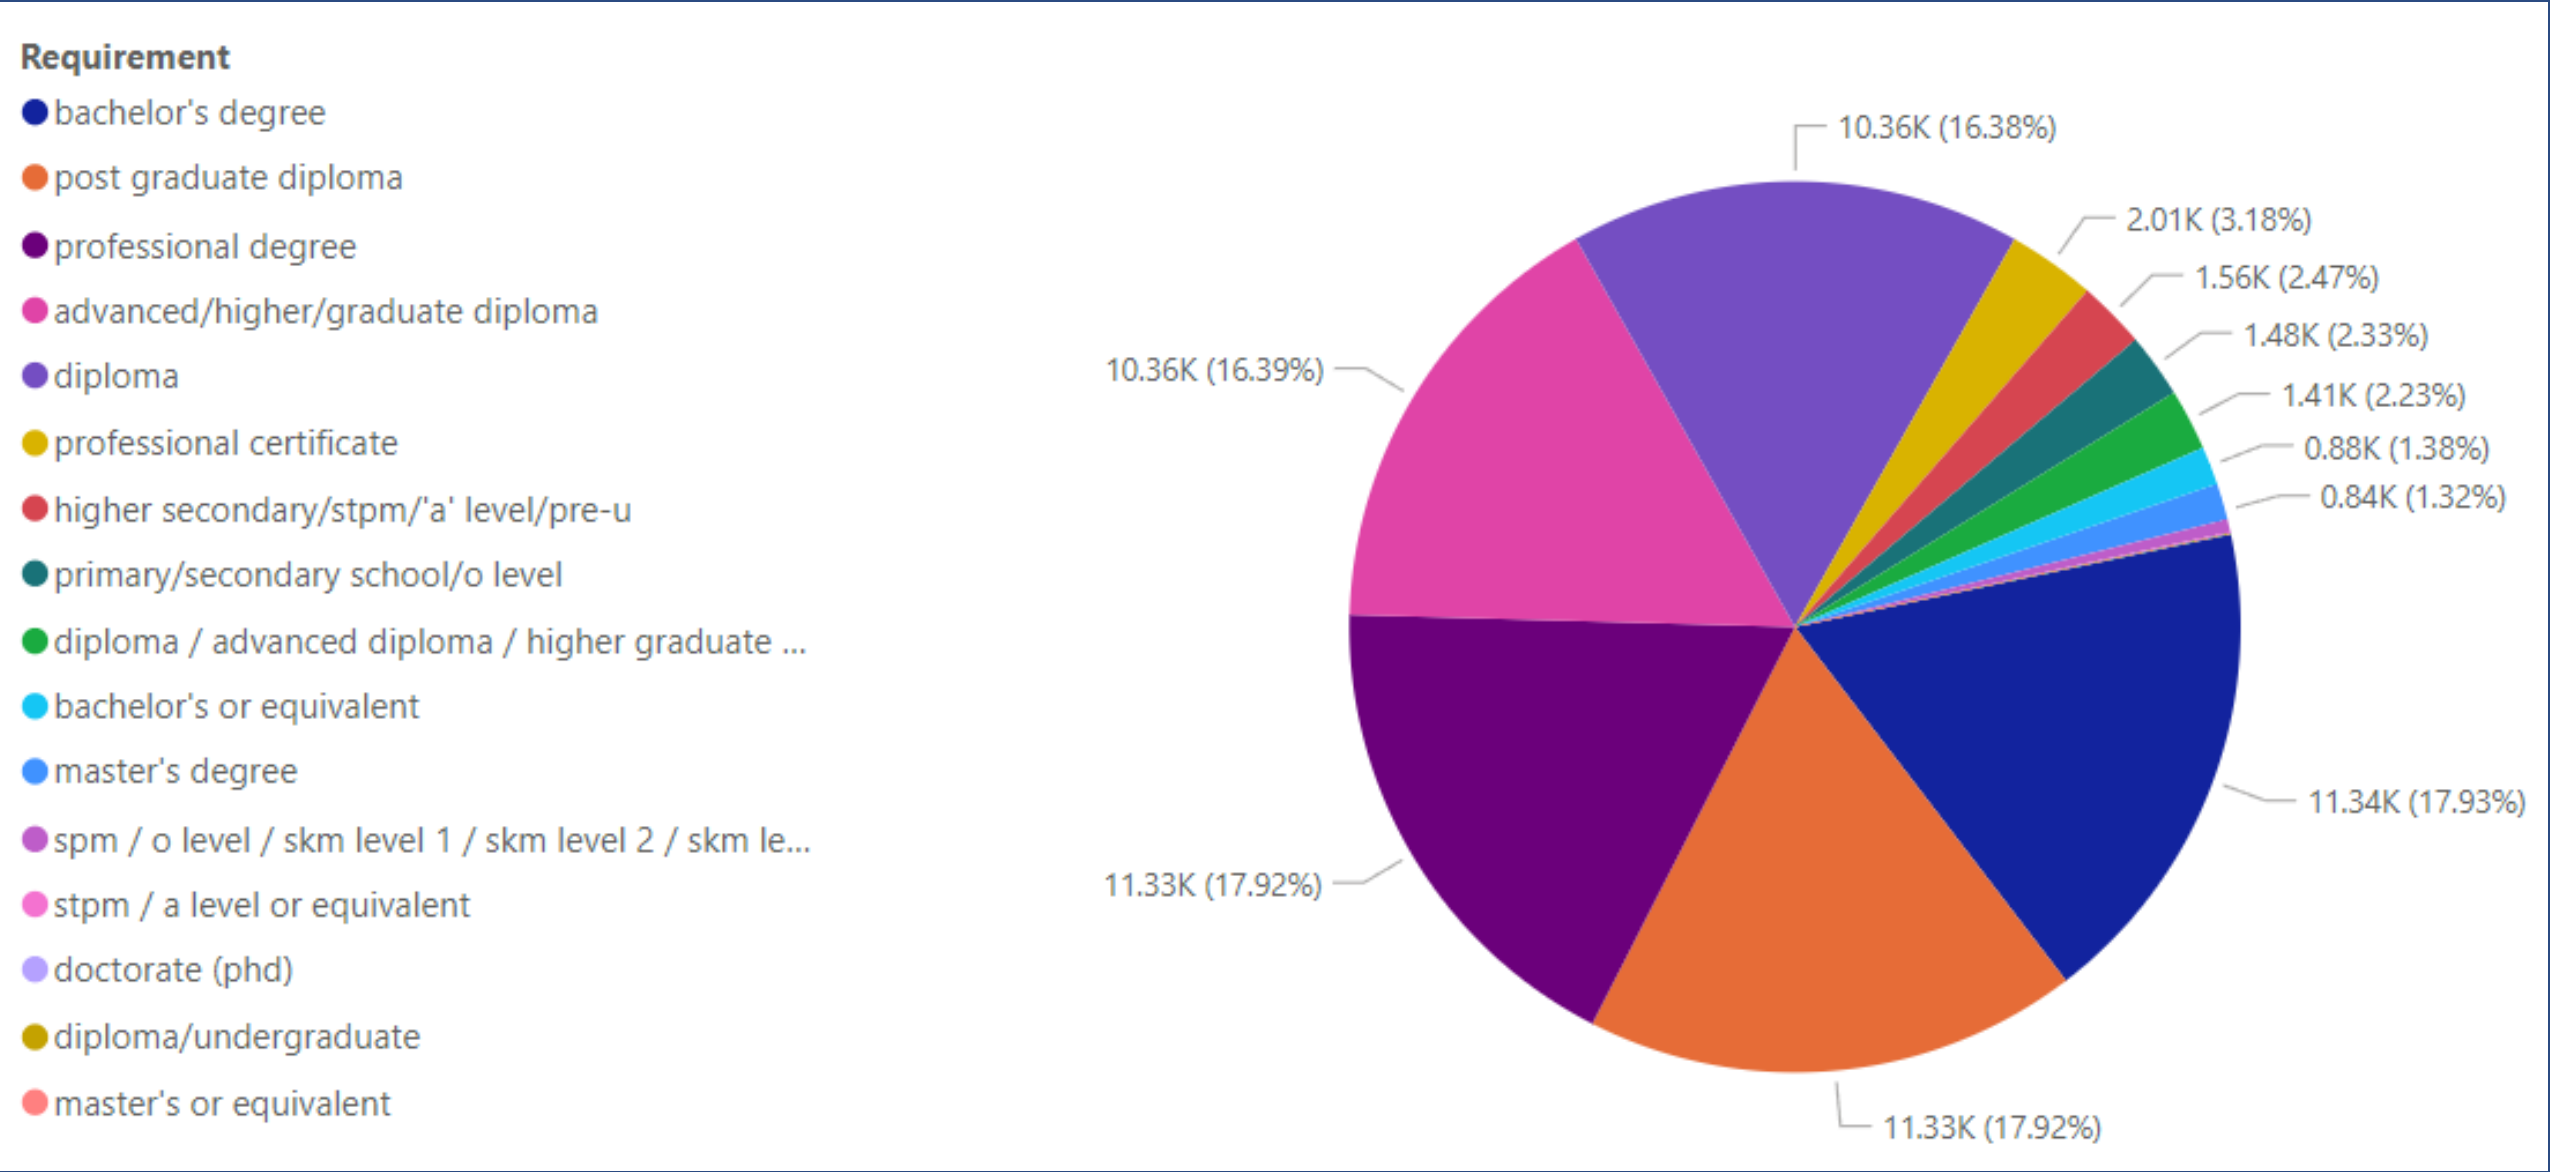

# Minimum Salary by Experience

Experience 0 - 5 years median  
salary is 3K MYR

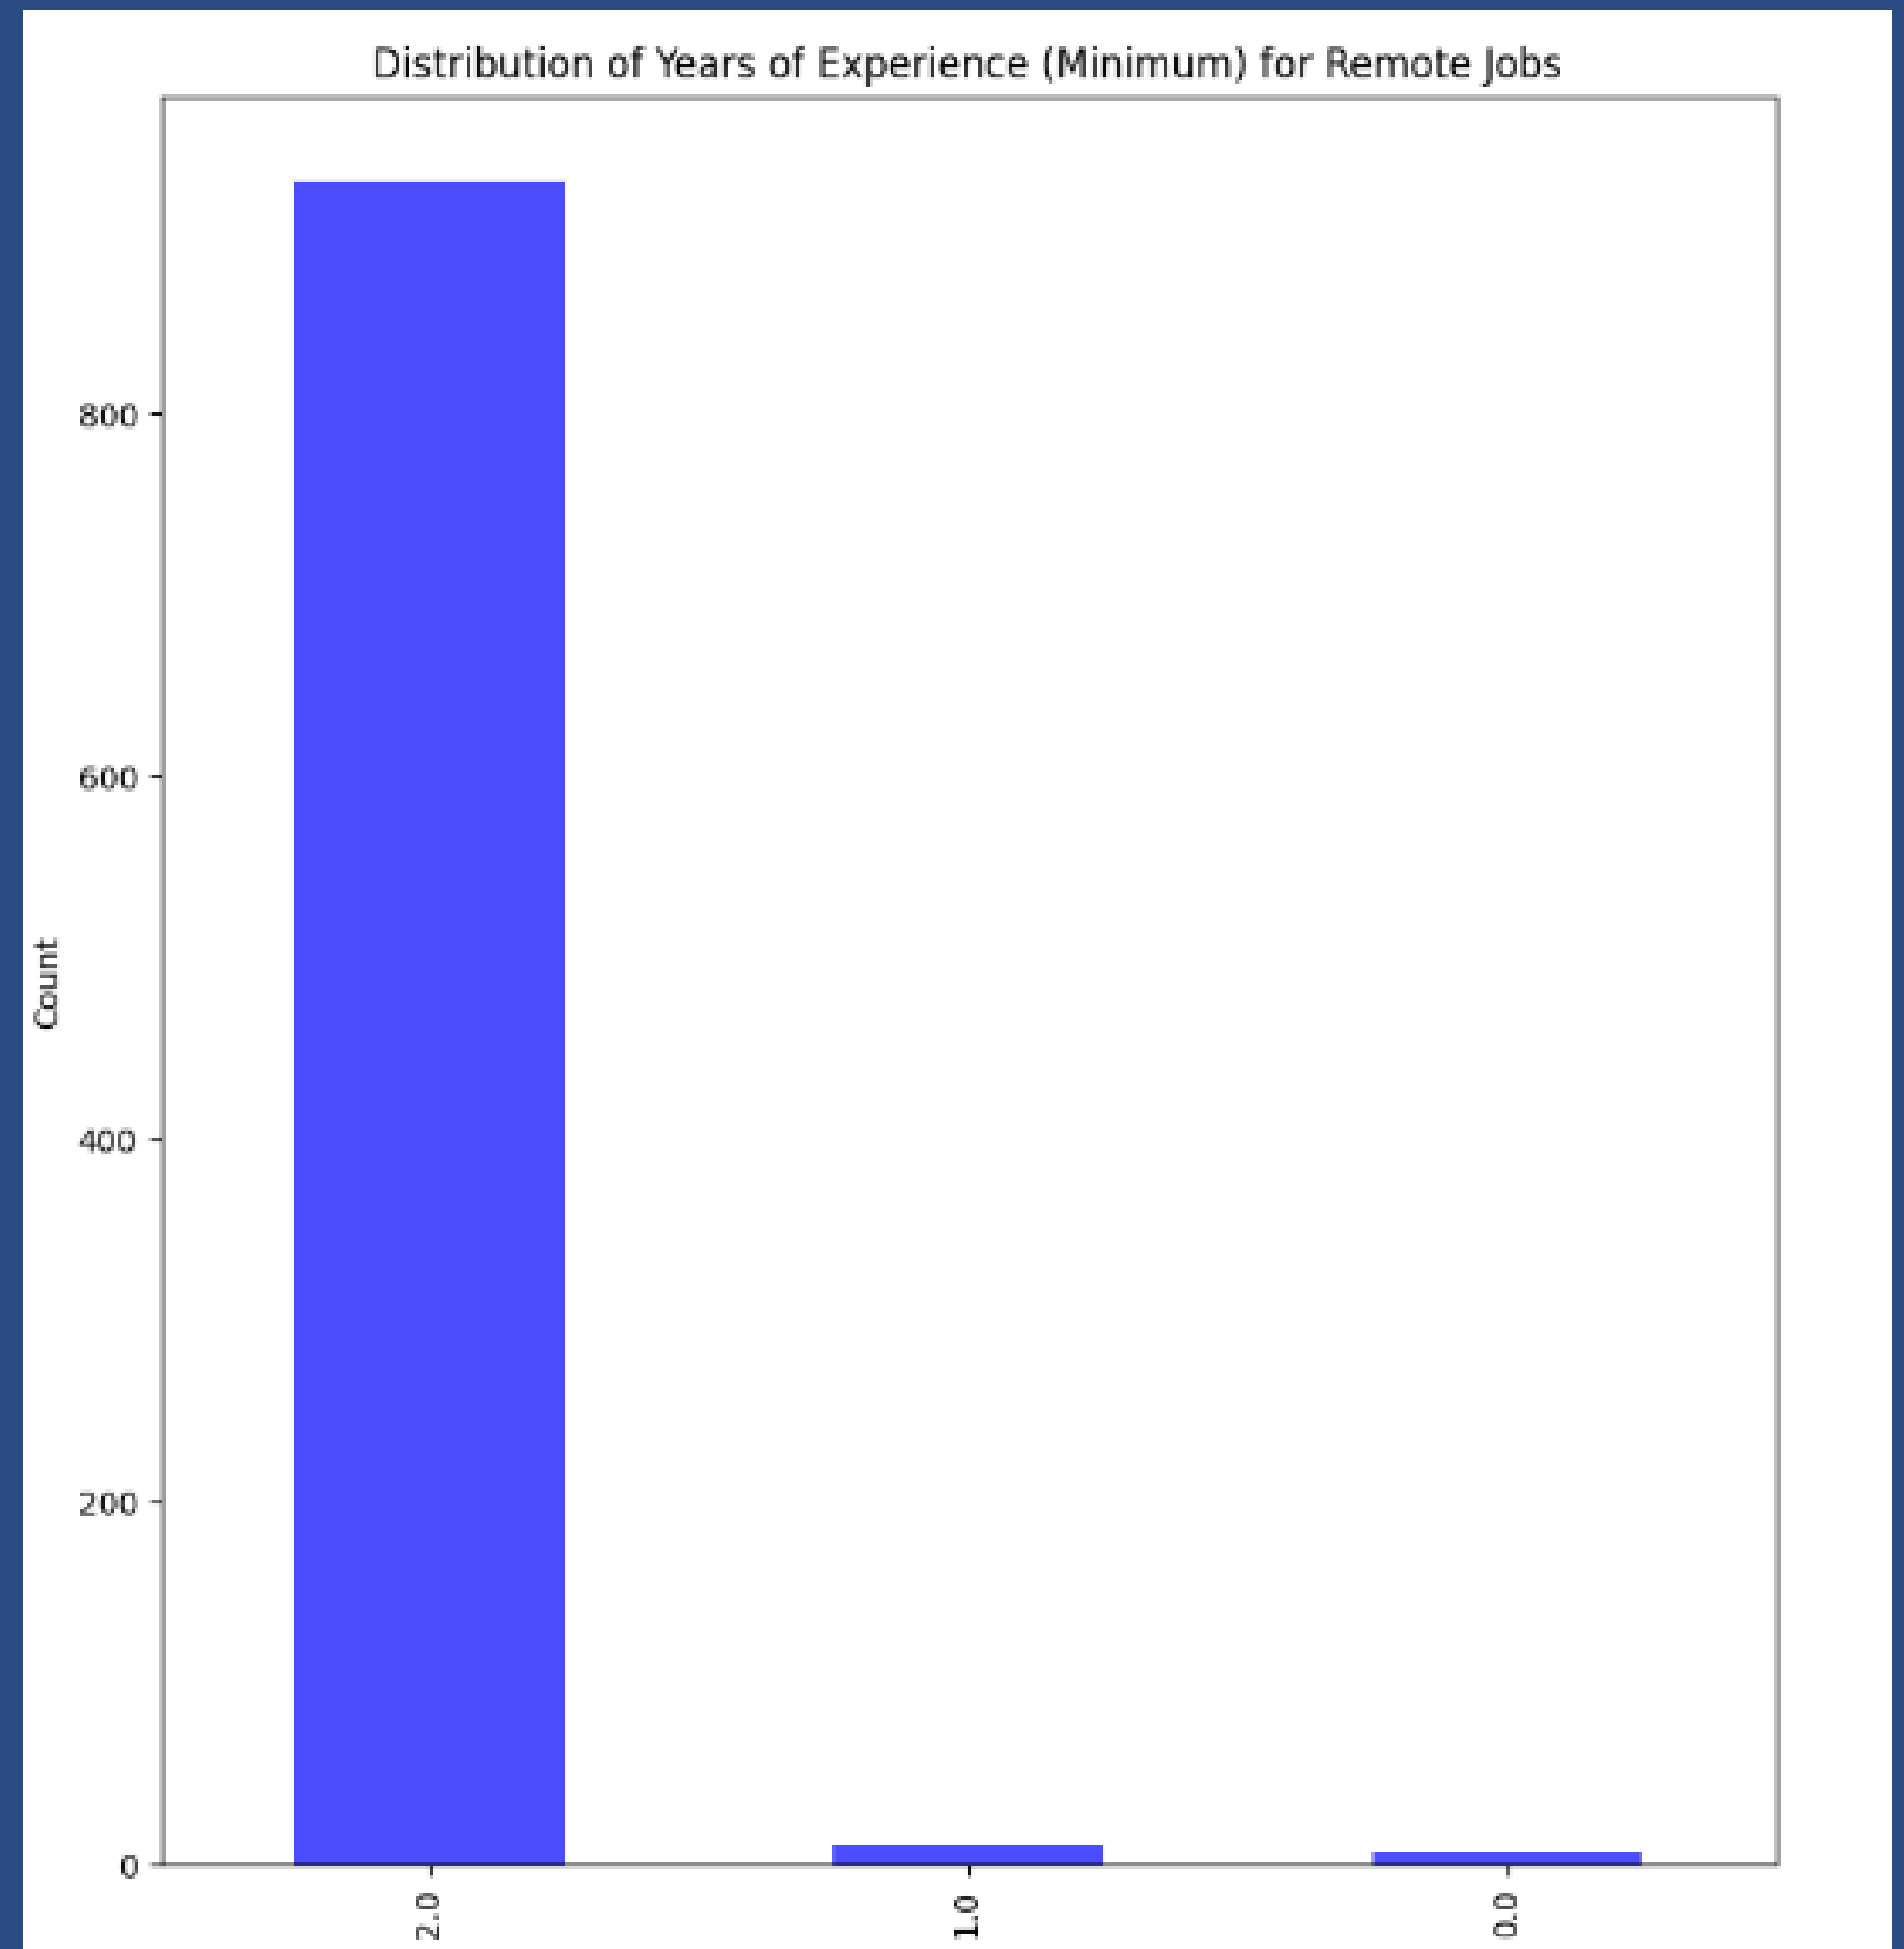

# Education Requirement

Bachelor's Degree is the highest requirement at 17.34K or 17.93%

# Distribution of Years Experience

The average expected experience for these roles is 2-3 years

# Conclusion

Based on the analysis, our conclusions are:

1. Marketing Executive and Digital Marketing Executive are suitable candidates for gig jobs within the Marketing and Advertising category.
2. The prerequisite for these roles is a Bachelor's degree.
3. Although initially full-time, there's potential to transition these roles into flexible gig work.
4. The average expected experience for these roles is 2-3 years.
5. Thus, converting positions into gig work can meet market demand while providing flexibility for experienced professionals.

Experience is the main determinant in determining a person's salary, thus showing a strong relationship between professional background and compensation level.

**Thank you**
